### **Critique:**

3 years. Complete scissor bite. Shown out of coat. Square female. Good length of leg. Good reach of neck. Level top line. Good angulations. Sloping croup. Fine head. Muzzle a little pinched. Good pigmentation. Tall ears. Flat skull, minimum stop, lacking in underjaw. Eye could be darker. Moderate bone. Square in outline. Not in best condition today. Move OK, touch loose in front. Good tail carriage.
